

Books 601–700

1,000 Books Before Kindergarten

stamp when completed

Write On!

Getting ready to write is more than just practicing letters.

Eat cereal! Picking up small pieces of cereal one at a time develops your child's finger strength, and helps when it's time to hold a pencil. Unwrap presents! Wrap your child's toys in newspaper and let them tear away. It will develop hand strength and the fine motor skills needed to write. Scribble and draw with crayons, pencils and pens.
