GRAND TOTAL				\$ 1,536,879.00				

All projects were accepted. There were no projects rejected or reallocated during the Prince William Area CoC local competition.

* For some projects the number of "Possible Points" is reduced as the project did not have data to be scored for certain measures. This does not mean the provider did not submit data, it simply means the data does not exist. For example, some of the PSH projects did not have any exits during the reporting period therefore there's nothing to score for exit destination outcomes.

** Minimum threshold score is 73% (Projects falling below the threshold score are still included but are subject to monitoring from the CoC.)

† Project(s) "held harmless"

VA0439 † is a first-year renewal and could not be scored.

VA0132 † supports the entire CoC's HMIS and HMIS participation by CoC-funded projects is required under the CoC Program.

‡ Project is split between Tier I and Tier II

VA0324 ‡ Total funding: \$205,664
