Dumpster Days are organized by the Prince William County Department of Public Works Solid Waste Management Division, offering an opportunity for all county residents to participate.

We encourage residents to engage in community cleanups within their neighborhoods. Whether volunteering for litter pickups or utilizing the free County dumpsters to declutter and clear debris from their surroundings, community involvement is key to maintaining a clean and pleasant environment.

HOUSEHOLD HAZARDOUS WASTE & ELECTRONICS DISPOSAL IS NOT PERMITTED

We are unable to accept fuel tanks, motor oil, fuel drums, household hazardous waste, antifreeze, paint, paint thinners, pesticides, pool chemicals, commercial waste, or electronics at these events.

These items can be appropriately disposed of at the County Landfill through the Household Hazardous Waste and Electronics Recycling Program. For further details on the correct disposal procedures, please contact (703) 792-5750.

When discarding household appliances, kindly ensure that refrigerators are emptied and cleaned, glass trays are removed from microwaves, and the refrigerator doors are securely taped before delivering them to the designated Dumpster Day location.
