

Prince William 4-H Project Record Evaluation

Name _____ Club _____

Project _____ Years in Project _____

Age _____ Project Complete _____ Project in Progress _____ Date (mo/yr) _____

A **Project Record** should be submitted for each project in which the 4-Her participated during the 4-H year. It is not necessary that every project be completed during the year, as some projects span more than one year.

Note: Although it is important to establish appropriate goals for a project, goals are frequently changed or modified through the course of the project, just as they are in life. Therefore, judges will not expect accomplishments to mirror the original goals. What is important is to show significant progress.
