EXECUTIVE DIRECTOR'S TIME

--Ms. Bachman reiterated that she and Ms. Wheeler attended the drug court graduation today. It was very successful. Ms. Wheeler's team got huge kudos from the interim drug treatment coordinator who said how wonderful our staff were. One of our staff spoke on behalf of one of the graduates who was feeling too shy to speak. To see the impact was phenomenal and seeing our team's involvement was very gratifying. Ms. Bachman gave a huge shout out to Ms. Wheeler, and Mr. Dan Manza. This program saves lives, saves money and reduces recidivism. The other 16 participants were there to witness the graduation, so it was a really inspiring event.

--At the BOCS meeting on Tuesday all of the directors and acting directors in Mr. Johnson's quadrant of Health, Wellbeing and Environmental Sustainability presented to the BOCS. The presentation is online. Community Services got some great feedback.

--The Legislative Packet will go out in email and/or mail shortly. Highlights are:

- VACSB is putting forward funding requests to cover costs associated with the Priority 1 Waivers the governor funded.
- For Early Intervention services, VACSB is requesting an increase in funding to account for the 5% increase in children served and the deficit that EI services operates under each year.
- VACSB is requesting a 12.5% rate increase for SUD services that did not receive the permanent 12.5% rate increase that other behavioral services received.
- Prevention Services – Another increase VACSB is requesting is for Prevention Services. Ms. Bachman emphasized that prevention services are critical in serving the community across the full continuum and need to keep them adequately funded to be able to continue the robust array of services wanted in our community.

--CRC Update – Ms. Bachman shared that key partners are meeting weekly and approaching from a multitiered standpoint. There is meeting next week with DMAS and also working on state and federal delegate advocacy. Deputy Executive Elijah Johnson elaborated on the efforts to resolve the IMD (Institution for Mental Diseases) exclusion issue with the CRC that is around being able to bill Medicaid for funding. Mr. Johnson stated that “all hands are on deck” and conversations are being had amongst all parties involved. He is hoping for more clarity as a result of next week's meeting and that we will know what actions can be taken. CS board members had a couple of questions and there was further discussion as to the details surrounding the issue.
