

Programs for Students Grades K-6 Environmental Education to Meet SOLs

Our Science in the Park instructors lead fun, hands on programs for grades K-6 that reinforce 2018's Standards of Learning (SOL's).

Please join us as we use our forests, lakes, streams, and fields to support what's being taught in the classroom. We look forward to seeing you in one of our parks soon!

Lake Ridge Park • Locust Shade Park • Silver Lake Regional Park
