Citizen's Time.

- Charlie Grymes was present but had no comments to share.

County Agency Representatives

PWC Department of Parks and Recreation (DPR). Janet Bartnik, Patti Pakkala, David Kroeger, Robert Boyd

- Eugene Loew stopped by to inform the group that he was leaving DPR for a leadership job with Stafford Parks, Rec and Trails. He was reminded that PWC needs to connect the PHNST with Stafford at PWC's southern boundary.
- The State of the Parks community meeting has been rescheduled to March 6th at Forest Park High School.
- The PHNST Gap 1 Stakeholder meeting was rescheduled to February 26th at 1 PM at Hellwig.
- The next Doves Landing Site Plan meeting will be held at 7 PM on May 19th at the Kelly Center. It is important those who want this park to be completed attend the meeting.
- David reported on status for several DPR projects.
 - Occoquan Greenway Segment 4 Bridge
 - Bridge construction underway. Bridge construction should be completed in June.
 - Occoquan Greenway Segment 6 Bridge
 - The site plan has been revised based on Prince William Water's comments on proposed landscaping and the need to add a shoring wall for the existing sanitary sewer force mains. The revision plan is expected to be approved in March with the bidding in May and June. Construction is expected later this year, but the timing is to be determined.
 - Powell's Creek Crossing
 - The proposal for the final engineering design was received. **INFORM Studios** provided the final engineering design to Parks and Rec on **February 22**. Parks and Rec are in the process of reviewing it.
- David and Patti discussed the current state of property that could make up the Flat Branch trail from Sudley Road to Bull Run. One can walk down most of this which is a utility corridor. DPR does not own all contiguous property where this could run. David showed the attached map which shows the VDOT right of way which could be used but would have to be properly transferred. This is wide enough to support a 10-12 foot shared use path. This is currently not a DPR priority though it is a Coles District priority.

PWC Transportation. Kevin Wyrock

- Kevin Wyrock was introduced as PWC's Transportation Planning Manager.
- Kevin informed the group that a letter about the I-95 bridge over Neabsco Creek was sent to VDOT in mid-February. VDOT indicated it would review the letter and respond.
- A new trail from Marumsco Acres to the new Jefferson Park would be built using the \$1M in the FY25 CIP for trails. It would likely be made with stone dust.
- A consolidated Safety Study meeting will take place February 26th.

PWC Planning, Yolanda Hipski, Jonathon Rodriguez

- Yolanda discussed the agenda for the ULI Sudley Road TAP Study meetings on March 5th and 6th at the Hilton Garden Inn in Manassas. (see attachment). She asked for one or more TBC members to attend the Stakeholder Roundtable discussions on March 5th at 2 PM. She invited anyone interested in this to attend the Panel Findings presentation on March 6th at 3:30 PM.
- Jonathon Rodriguez was introduced as a new planner in the Planning department. He is new to the area and comes from the Henderson/Las Vegas Nevada area. He enjoys biking.
- Yolanda reported that the Vint Hill Corridor Study would include a Small Area Plan and Transportation analysis.

Community Development Applications

Vint Hill Corridor Applications, Robert Boyd

Robert presented slides (attached) and talked about the six applications currently being evaluated in the Vint Hill corridor. Combined they account for more than 2000 units. See the slides for details and lists of concerns with each. The county plans shared use paths along Vint Hill Road and wants easements to connect trails.

The Towns of Occoquan, Robert Boyd

Robert also talked briefly about the Towns of Occoquan development. The Proffer comments returned to the developer asked to remove the easement restrictions on the PHNST section, to align better with the North Woodbridge Small Area Plan, to improve walkability for the residents, and to provide a connection from the west to Annapolis Way. The current offering violates a 75-foot setback along I-95 which when resolved may make some property along I-95 available for a west connecting trail.

Robert reminded TBC members to review these in DAPS and email comments to the identified planner.

Presentations/Reports.

Trails Master Plan - 1993 Trails Plan Review, David Kroeger

- David showed the map of trails called out in the last Master Trails Plan from 1993 – 133.5 miles. (See attachment.) He then overlaid all the actual and planned recreational trails in the 2022 Comprehensive Plan mobility section – 319 miles (see attachment).
- He stated that a newly hired mapping analyst will start on March 17 and assist greatly with capturing data for the Master Trails Plan.
- David is actively gathering ground truth data for the Master Trail Plan and will share results at the April TBC Meeting.
- By using the County Mapper, David asked TBC members to check out all trails shown on the non-motorized level and report any errors. He will send a Google Doc out in the next week to record these errors.
- When Bryce returns, he will create an equivalent roadway map.

Review of FY26 Budget and CIP for Parks, Janet Bartnik

- Janet provided and discussed the Parks and Recreation budget numbers in the current proposed budget that was recently revealed as the starting point with keeping the tax rates the same. (see attached slides)
- Janet asked the TBC to advocate for more trail \$ over the annual \$1M put in the CIP last year. There are lots of places to increase trail funding.

- The County Executive announced he wants to move capital projects under one department for the FY27 budget. It is not clear how this affect Parks and Recreation since they have many very small capital projects.

Bike/Ped Infrastructure on the 234 Bypass Interchange Projects, Liz Cronauer

- Liz talked about several of the intersections on the Route 234 Bypass north of Route 28 and presented slides (attached). The 2000+ housing units planned for Innovation Town Center will require bike/pedestrian routes along the bypass and through the intersections. The Pedestrian Walkway Bridge at University in the Small Area Plan will be needed to connect these people with the Two Silos entertainment areas and Target shopping center.

- No report.
- Jason:
 - Jason described activities laying rock over a marsh on the north side of Andrew Leitch Park.

 - Joe recounted a challenging 12 mile hike between two volcanoes with 3000 feet of elevation gain. One of the volcanoes was used as Mount Doom in the Lord of the Rings movies. He also talked about the many signs along the way featuring pictures of rangers describing the next section of trail and the challenges hikers faced.
